Subject Index

Abstracts, data accuracy
Data in abstracts of research articles. Are they consistent with those reported in the article?, 67 (BC)
Aeromonas spp.
Bacterial enteropathogens and factors associated with seasonal episodes of gastroenteritis in Nsukka, Nigeria, 76 (OA)
Aggregation
Vaginal lactobacilli: self- and co-aggregating ability, 183 (OA)
Air flight and thrombosis
Air flight-related thrombosis: reality or hype?, 2 (BC)
Angiotensinogen
Threonines at position 174 and 235 of the angiotensinogen polypeptide chain are related to familial history of hypertension in a Spanish-Mediterranean population, 95 (OA)
Anthrax
Bioterrorism: an overview, 232 (BE)
APACHE III
Clinical relevance of intracellular cytokines IL-6 and IL-12 in acute pancreatitis, and correlation with APACHE III score, 85 (OA)
Apoptosis
Role of apoptosis in the pathogenesis of B-cell chronic lymphocytic leukaemia, 235 (RA)
Automation
Semi-automation of the polymerase chain reaction for laboratory confirmation of meningococcal disease, 137 (OA)

Biological warfare
Bioterrorism: an overview, 232 (BE)
Blastocystis hominis
Incidence of *Blastocystis hominis* in faecal samples submitted for routine microbiological analysis, 154 (OA)
Blood coagulation
Electrical impedance measurement as an endpoint detection method for routine coagulation tests, 223 (OA)
Blood pressure
Threonines at position 174 and 235 of the angiotensinogen polypeptide chain are related to familial history of hypertension in a Spanish-Mediterranean population, 95 (OA)
Book reviews

Campylobacter spp.
Cloning and sequence analysis of the *recA* gene in urease-positive thermophilic campylobacter (UPTC), 166 (BS)
Plasmid profiles of urease-positive thermophilic campylobacter (UPTC) strains isolated in Europe and Asia (Japan), 158 (BS)
Prevalence of *Campylobacter* species among HIV/AIDS patients in Nigeria, 162 (BS)
Two Japanese urease-positive thermophilic campylobacters, CF89-12 and CF89-14, isolated in 1989 prove to be two distinct strains, 65 (L)
Candida
Vaginal lactobacilli: self- and co-aggregating ability, 183 (OA)
Cardiovascular disease
Smoking and use of smokeless tobacco in treated hypertensive men at high coronary risk: utility of urinary cotinine determination, 145 (OA)
Catecholamines
Association between tyrosine hydrozylase polymorphisms and left ventricular structure in young normotensive men, 90 (OA)
Do catecholamines influence the level of plasma leptin in patients with phaeochromocytoma?, 141 (OA)
Chlamydia trachomatis
Impact of host genetics on susceptibility to human *Chlamydia trachomatis* disease, 128 (RA)
Serum IgM to *Chlamydia trachomatis* in pregnancy: its usefulness for screening, 30 (OA)
Cholinesterases
Synthetic organic hard capsule colouring agents: *in vitro* effect of human true and pseudo-cholinesterases, 212 (OA)
Chromatin
Hypothesis for the influence of fixatives on the chromatin patterns of interphase nuclei, based on shrinkage and retraction of nuclear and perinuclear structures, 105 (BE)
Clinical microbiology services
Effect of staff attitudes on quality in clinical microbiology services, 69 (OA)
Complement
Effects of storage on the physicochemical and antibacterial properties of human milk, 205 (OA)
Complementary DNA fragment library
Construction of a cDNA fragment library from SH-SY5Y cells using restriction display PCR, 35 (OA)
Complementary DNA microarray
Re-use of a stripped cDNA microarray, 118 (BS)
Coronary heart disease
Lipoprotein (a) in an immigrant Indian population sample in Australia, 119 (BS)
Cotinine
Smoking and use of smokeless tobacco in treated hypertensive men at high coronary risk: utility of urinary cotinine determination, 145 (OA)

Crohn's disease
Tumour necrosis factor blocking agents: a new therapeutic modality for inflammatory disorders, 173 (RA)
Cyclospora cayetanensis oocysts
Safranin staining of *Cyclospora cayetanensis* oocysts not requiring microwave heating, 114 (BS)
Cystic fibrosis
Pandoraea apista isolated from a patient with cystic fibrosis: problems associated with laboratory identification, 164 (BS)

Deep vein thrombosis
Air flight-related thrombosis: reality or hype?, 2 (BC)
Diarrhoea
Bacterial enteropathogens and factors associated with seasonal episodes of gastroenteritis in Nsukka, Nigeria, 76 (OA)
Enteropathogenic *Escherichia coli* infection: history and clinical aspects, 123 (RA)
Prevalence of *Campylobacter* species among HIV/AIDS patients in Nigeria, 162 (BS)
Dipsticks
Non-microscopic method for malaria diagnosis using OptiMAL IT, a second-generation dipstick for malaria pLDH antigen detection, 228 (OA)

Editorial
Evolution in practice, 1
Electrophoresis, agar gel
Molecular and immunological characterisation of *Fasciola* species, 191 (OA)
Electrophoresis, two-dimensional
Proteomics and its impact upon biomedical science, 47 (RA)
Enzyme-linked immunosorbent assay
Diagnosis of visceral leishmaniasis: comparative potential of amastigote antigen, recombinant antigen and PCR, 218 (OA)
Erythrosine
Synthetic organic hard capsule colouring agents: *in vitro* effect of human true and pseudo-cholinesterases, 212 (OA)
Escherichia coli
Bacterial enteropathogens and factors associated with seasonal episodes of gastroenteritis in Nsukka, Nigeria, 76 (OA)
Enteropathogenic *Escherichia coli* infection: history and clinical aspects, 123 (RA)
Eye lesions
Lectins as targeting agents - the *in vitro* binding of lectins to lesions in the eye and mouth, 115 (BS)

Fasciola spp.
Molecular and immunological characterisation of *Fasciola* species, 191 (OA)

Gastroenteritis
Bacterial enteropathogens and factors associated with seasonal episodes of gastroenteritis in Nsukka, Nigeria, 76 (OA)
Gelatin
Synthetic organic hard capsule colouring agents: *in vitro* effect of human true and pseudo-cholinesterases, 212 (OA)
Genes, bacterial
Helicobacter pylori cagA and *vacA* cytotoxin genes in Changsha, China, 150 (OA)
Genes, bcl-2
Role of apoptosis in the pathogenesis of B-cell chronic lymphocytic leukaemia, 235 (RA)
Genetics and infection
Impact of host genetics on susceptibility to human *Chlamydia trachomatis* disease, 128 (RA)
GTP-binding proteins
G-protein ß3-subunit gene variant, blood pressure and erythrocyte sodium/lithium countertransport in essential hypertension, 101 (OA)

Helicobacter pylori
Helicobacter pylori cagA and *vacA* cytotoxin genes in Changsha, China, 150 (OA)
Hemagglutination tests
Molecular and immunological characterisation of *Fasciola* species, 191 (OA)
HIV/AIDS
Prevalence of *Campylobacter* species among HIV/AIDS patients in Nigeria, 162 (BS)
Human leucocyte B27 antigen
Seronegative spondarthritis and human leucocyte antigen association, 38 (OA)
Human tissue
How much tissue is present in archival paraffin blocks and slides?, 203 (OA)
Hypertension
G-protein ß3-subunit gene variant, blood pressure and erythrocyte sodium/lithium countertransport in essential hypertension, 101 (OA)
Smoking and use of smokeless tobacco in treated hypertensive men at high coronary risk: utility of urinary cotinine determination, 145 (OA)
Threonines at position 174 and 235 of the angiotensinogen polypeptide chain are related to familial history of hypertension in a Spanish-Mediterranean population, 95 (OA)

Image processing, computer-assisted
Image analysis of Transwell assays in the assessment of invasion by malignant cell lines, 11 (OA)
Immunodiffusion
Molecular and immunological characterisation of *Fasciola* species, 191 (OA)
Immunoelectrophoresis
Molecular and immunological characterisation of *Fasciola* species, 191 (OA)
Immunoglobin M
Serum IgM to Chlamydia trachomatis in pregnancy: its usefulness for screening, 30 (OA)
Immunohistochemistry
Evaluation of melanocytic neoplasms: application of a pan-melanoma antibody cocktail, 196 (OA)
Image analysis of Transwell assays in the assessment of invasion by malignant cell lines, 11 (OA)
Impedance
Electrical impedance measurement as an endpoint detection method for routine coagulation tests, 223 (OA)
Infection
Effects of storage on the physicochemical and

antibacterial properties of human milk, 205 (OA)
Inflammatory disorders
Tumour necrosis factor blocking agents: a new therapeutic modality for inflammatory disorders, 173 (RA)
Interleukin-6
Clinical relevance of intracellular cytokines IL-6 and IL-12 in acute pancreatitis, and correlation with APACHE III score, 85 (OA)
Interleukin-12
Clinical relevance of intracellular cytokines IL-6 and IL-12 in acute pancreatitis, and correlation with APACHE III score, 85 (OA)

Journal-based Learning, 66, 133, 182

Kala-azar
Diagnosis of visceral leishmaniasis: comparative potential of amastigote antigen, recombinant antigen and PCR, 218 (OA)
Kidney failure, chronic
Nitric oxide generation by peripheral blood cells in chronic renal failure, 24 (OA)

Lactobacillus
Vaginal lactobacilli: self- and co-aggregating ability, 183 (OA)
Lectins
Lectins as targeting agents - the *in vitro* binding of lectins to lesions in the eye and mouth, 115 (BS)
Leishmania donovani
Diagnosis of visceral leishmaniasis: comparative potential of amastigote antigen, recombinant antigen and PCR, 218 (OA)
Leptin
Do catecholamines influence the level of plasma leptin in patients with phaeochromocytoma?, 141 (OA)
Leukemia, B-cell, chronic
Role of apoptosis in the pathogenesis of B-cell chronic lymphocytic leukaemia, 235 (RA)
Lipoprotein (a)
Lipoprotein (a) in an immigrant Indian population sample in Australia, 119 (BS)

Malaria
Non-microscopic method for malaria diagnosis using OptiMAL IT, a second-generation dipstick for malaria pLDH antigen detection, 228 (OA)
Melanoma
Evaluation of melanocytic neoplasms: application of a pan-melanoma antibody cocktail, 196 (OA)
Meningococcus
Multilocus sequence typing and porA gene sequencing differentiates strains of *Neisseria meningitidis* during case clusters, 160 (BS)
Semi-automation of the polymerase chain reaction for laboratory confirmation of meningococcal disease, 137 (OA)
Metabolism, inborn errors
Tandem mass spectrometry: the tool of choice for diagnosing inborn errors of metabolism?, 42 (BE)
Methicillin-resistant *Staphylococcus aureus*
Methicillin-resistant *Staphylococcus aureus*: laboratory detection methods in use in the Republic of Ireland and Northern Ireland, 7 (OA)
Milk, human
Effects of storage on the physicochemical and antibacterial properties of human milk, 205 (OA)
Molecular biology training
Need for improved molecular biology training for biomedical scientists in NHS microbiology laboratories, 180 (L)
Morbidity
Clinical aspects of pneumonia, 170 (BE)
Mouth lesions
Lectins as targeting agents - the *in vitro* binding of lectins to lesions in the eye and mouth, 115 (BS)

Neisseria meningitidis
Multilocus sequence typing and *porA* gene sequencing differentiates strains of *Neisseria meningitidis* during case clusters, 160 (BS)
Semi-automation of the polymerase chain reaction for laboratory confirmation of meningococcal disease, 137 (OA)
Neoplasms, invasive
Image analysis of Transwell assays in the assessment of invasion by malignant cell lines, 11 (OA)
Neoplasms, melanocytic
Evaluation of melanocytic neoplasms: application of a pan-melanoma antibody cocktail, 196 (OA)
Neoplasms, ovarian
In vitro testing of platinum-based drugs on a panel of human ovarian tumour cell lines, 15 (OA)
Nitric-oxide synthase
Nitric oxide generation by peripheral blood cells in chronic renal failure, 24 (OA)
Nitroprusside
Haematological influences of potassium adaptation in normotensive and renally-hypertensive Wistar rats, 80 (OA)
Nuclear membrane
Hypothesis for the influence of fixatives on the chromatin patterns of interphase nuclei, based on shrinkage and retraction of nuclear and perinuclear structures, 105 (BE)

Obesity
G-protein ß3-subunit gene variant, blood pressure and erythrocyte sodium/lithium countertransport in essential hypertension, 101 (OA)
Ovarian neoplasms
In vitro testing of platinum-based drugs on a panel of human ovarian tumour cell lines, 15 (OA)

Pancreatitis, acute necrotising
Clinical relevance of intracellular cytokines IL-6 and IL-12 in acute pancreatitis, and correlation with APACHE III score, 85 (OA)
Pandoraea apista
Pandoraea apista isolated from a patient with cystic fibrosis: problems associated with laboratory identification, 164 (BS)
Peptic ulcer
Helicobacter pylori cagA and *vacA* cytotoxin genes in Changsha, China, 150 (OA)

Phaeochromocytoma
Do catecholamines influence the level of plasma leptin in patients with phaeochromocytoma?, 141 (OA)
Plasmodium falciparum
Non-microscopic method for malaria diagnosis using OptiMAL IT, a second-generation dipstick for malaria pLDH antigen detection, 228 (OA)
Platelet aggregation
Haematological influences of potassium adaptation in normotensive and renally-hypertensive Wistar rats, 80 (OA)
Platinum compounds
In vitro testing of platinum-based drugs on a panel of human ovarian tumour cell lines, 15 (OA)
Pneumonia
Clinical aspects of pneumonia, 170 (BE)
Polymerase chain reaction
Construction of a cDNA fragment library from SH-SY5Y cells using restriction display PCR, 35 (OA)
Diagnosis of visceral leishmaniasis: comparative potential of amastigote antigen, recombinant antigen and PCR, 218 (OA)
Semi-automation of the polymerase chain reaction for laboratory confirmation of meningococcal disease, 137 (OA)
Polymorphism (genetics)
Association between tyrosine hydrozylase polymorphisms and left ventricular structure in young normotensive men, 90 (OA)
G-protein ß3-subunit gene variant, blood pressure and erythrocyte sodium/lithium countertransport in essential hypertension, 101 (OA)
Threonines at position 174 and 235 of the angiotensinogen polypeptide chain are related to familial history of hypertension in a Spanish-Mediterranean population, 95 (OA)
Potassium channels
Haematological influences of potassium adaptation in normotensive and renally-hypertensive Wistar rats, 80 (OA)
Pregnancy and *Chlamydia trachomatis*
Serum IgM to *Chlamydia trachomatis* in pregnancy: its usefulness for screening, 30 (OA)
Proteomics
Proteomics and its impact upon biomedical science, 47 (RA)
Prothrombin
Electrical impedance measurement as an endpoint detection method for routine coagulation tests, 223 (OA)

Quality assurance
Effect of staff attitudes on quality in clinical microbiology services, 69 (OA)
Quinoline yellow
Synthetic organic hard capsule colouring agents: *in vitro* effect of human true and pseudo-cholinesterases, 212 (OA)

Retained Organs Commission
How much tissue is present in archival paraffin blocks and slides?, 203 (OA)
Rheumatoid arthritis
Tumour necrosis factor blocking agents: a new therapeutic modality for inflammatory disorders, 173 (RA)
Safranin staining
Safranin staining of *Cyclospora cayetanensis oocysts* not requiring microwave heating, 114 (BS)
Salmonella spp.
Bacterial enteropathogens and factors associated with seasonal episodes of gastroenteritis in Nsukka, Nigeria, 76 (OA)
Shigella spp.
Bacterial enteropathogens and factors associated with seasonal episodes of gastroenteritis in Nsukka, Nigeria, 76 (OA)
Sialic acids
Measurement of urine total sialic acid: comparison of an automated ultraviolet enzymatic method with a colorimetric assay, 20 (OA)
Smallpox
Bioterrorism: an overview, 232 (BE)
Spectrum analysis, tandem mass
Tandem mass spectrometry: the tool of choice for diagnosing inborn errors of metabolism?, 42 (BE)
Spondylitis, ankylosing
Seronegative spondarthritis and human leucocyte antigen association, 38 (OA)
Staphylococcus aureus
Methicillin-resistant *Staphylococcus aureus*: laboratory detection methods in use in the Republic of Ireland and Northern Ireland, 7 (OA)
Streptococcus pneumoniae
Streptococcus pneumoniae: presumptive identification and reporting, 65 (L)
Sunset yellow
Synthetic organic hard capsule colouring agents: in vitro effect of human true and pseudo-cholinesterases, 212 (OA)

Tissue archive
How much tissue is present in archival paraffin blocks and slides?, 203 (OA)
Tissue fixation
Hypothesis for the influence of fixatives on the chromatin patterns of interphase nuclei, based on shrinkage and retraction of nuclear and perinuclear structures, 105 (BE)
Tobacco
Smoking and use of smokeless tobacco in treated hypertensive men at high coronary risk: utility of urinary cotinine determination, 145 (OA)
Toxoplasma infection
How to detect current toxoplasma infection, 4 (OA)
Tumour necrosis factor
Tumour necrosis factor blocking agents: a new therapeutic modality for inflammatory disorders, 173 (RA)
Tyrosine 3-monooxygenase
Association between tyrosine hydroxylase polymorphisms and left ventricular structure in young normotensive men, 90 (OA)

Urease-positive thermophilic campylobacters
Cloning and sequence analysis of the recA gene in urease-positive thermophilic campylobacter (UPTC), 166 (BS)

Plasmid profiles of urease-positive thermophilic campylobacter (UPTC) strains isolated in Europe and Asia (Japan), 158 (BS)
Two Japanese urease-positive thermophilic campylobacters, CF89-12 and CF89-14, isolated in 1989 prove to be two distinct strains, 65 (L)
Urine analysis
Measurement of urine total sialic acid: comparison of an automated ultraviolet enzymatic method with a colorimetric assay, 20 (OA)

Ventricular structure, left
Association between tyrosine hydroxylase polymorphisms and left ventricular structure in young normotensive men, 90 (OA)
